Fabric detail

The Xnetic™ H2O shoe cover brings waterproof performance, seamless construction and breathable fibers together for the highest level of flexibility available. The unique three-layer composition fuses our RainGuard membrane between a durable nylon outer shell and hypoallergenic liner, for use in wet weather and temperatures that dip towards freezing. The result is pair of shoe covers that will be your go-to winter favorites, with enough warmth and durability to satisfy dedicated riders.

Black back view

Xnetic™ H2O socks combine waterproof performance, seamless construction and breathable fibers in a knit construction for the highest level of flexibility available. The unique three-layer composition fuses our RainGuard membrane between a durable nylon outer shell and hypoallergenic liner, for use in wet weather and temperatures that dip towards freezing. The result is pair of socks that can be worn with nearly any cycling shoe, providing dry warmth and comfort when conditions are less than ideal.
