CLASSIC EL CAMINO BAR

Ritchey's Classic El Camino handlebar pairs the timeless style of high-polish silver with an alt bar for exploring new routes on home turf, in the city, or far off the beaten path. An extra large 35° backsweep puts you in a super comfy position for crossing mixed terrain, while a generous 750mm width and 50mm rise offer confident handling and a more natural riding sensation.

Crafted from double-buttet 6061 alloy, this bar strikes the perfect balance between strength and weight at just 320g. A 31.8mm clamp diameter and wider platform make mounting gear easy; its design delivers outsized comfort wherever you ride. The bar's true brilliance comes from its inherently classy look, blending aesthetics, versatility, and for some, a bit of nostalgia.

Like California's historic El Camino Real, this handlebar connects you to resilience, discovery, and the joy of exploration – now with the performance and sophistication of Ritchey Classic.
