BLACK CHILI COMPOUND

With our unique tread compound, we have revolutionized the sport of cycling. With the legendary **BlackChili Compound** we have answered the eternal question of the best balance of grip and rolling resistance for cycling. The latest polymers as well as specially developed carbon black particles and filler materials guarantee unique performance, be it on a road, gravel or a mountain bike, for time trialling or downhill.

Vectran™ BREAKER

Vectran is spun from liquid crystal-polymer. This way a thermoplastic, multiple-thread yarn is created. As a comparison: This partially crystalline fabric is more cut-resistant than aramide and its tensile strength is five times higher than that of steel. A Vectran breaker is lighter, more flexible and effective against cuts than a comparable nylon breaker. Without effecting rolling resistance.

ACTIVE COMFORT TECHNOLOGY

The revolutionary approach in cycling. Embedded in the tire construction the **Active Comfort Technology** absorbsvibrations and smoothens your ride.

LAZER GRIP

Lazer Grip, to make you one with the road. The lazered micro profile structure expands over the tire's shoulder and provides outstanding cornering.

TR For initial mounting we recommend to use at least 30 ml of Conti RevoSealant per tire. Then spin the tire (wheel) to spread the Conti RevoSealant inside of the tire and pump to the allowed maximum pressure. Check the pressure before the next ride and adjust to your desired PSI.

This tire is Hookless compatible to its limited max. pressure. Please check wheel instruction and tire packaging for detailed information.

TWO ICONS

Continental and Tadej Pogačar collaborated to create the character "Pogi", introducing him in a series of animations designed to promote road safety, mutual respect, and coexistence among all road users. The initiative further strengthens Continental's long-standing commitment to road safety while engaging the international cycling community.

Just like Tadej, the Grand Prix 5000 S TR is renowned around the globe. Championed for its perfect balance of speed, grip and puncture protection – it's no wonder it's the choice of the world's best professional road cyclist.

Each Limited Edition tire comes with a "Pogi" collectible, as seen on TV. Stick him on your dashboard or desktop while you make plans for your next KOM.
